Fury

Extreme

80-90

Built from the highly successful Fury Expert .60. The Fury *Extreme* takes 3-D flying to a new level above all other designs. Because of its lightweight/ridged construction, the power-to-weight ratio enables maneuvers that were once only dreamed of. "Extreme 3-D is now a reality!"

Special Features:

- ✓ Designed for the new Y.S. 80 and O.S. 90 engines.
- ✓ Available in two different gear ratios:
 - 8.18:1 Recommended for O.S. 90 3-D
 - 8.45:1 Recommended for Y.S. 80 3-D
- ✓ Stiffer head dampening
- ✓ Double-bearing, upper main-shaft block yielding 10mm of bearing/shaft contact
- ✓ Machined one-piece, split-gear auto hub
- ✓ Easily changeable self-aligning gear ratios
- ✓ C.N.C. aluminum cooling fan
- ✓ 11-tooth pinion gear with 3mm tapered upper-bearing blocks.
- ✓ Improved torque tube to withstand the greater engine loads
- ✓ New graphite "Ultra" tail boom --40% stiffer than our standard graphite boom @ 32.5" long.
- ✓ 5mm blade pivot bolts
- ✓ New self-adjusting front boom clamps.
- ✓ Accepts main blades up to 720mm with 105mm tail blades or 710mm with 110mm tail blades
- ✓ C.N.C. aluminum tail-rotor gear box.
- ✓ C.N.C. ball-bearing, pivoting-pitch plate and control links.
- ✓ Geometrically centered T/R pitch Mechanism

These features are in addition to the Fury .60 Expert, 60. Standard "Features".

C.N.C. Aluminum Tail-Rotor Gear Box
